

Company Mission & International Networking Event “Health Innovation Market”

Braga, 3 – 5 april 2019

ZENIT Center for innovation and technology in NRW/Germany, as partner of the Enterprise Europe Network, organizes in close cooperation with their Portuguese network partner ANI (Agencia Nacional de Inovacao), the INL (International Iberian Nanotechnology Laboratory), CENTI (Centre for Nanotechnology and Smart Materials) and the Health Cluster Portugal, an **international networking event during the Health Innovation Market, 3-5 april 2019.**

The Health Innovation Market, an initiative of the [Health Cluster Portugal](#), brings together around 250 representatives from research and industry health sectors, government authorities and stakeholders from both the Iberian peninsula as well as other European countries, including Israel. Besides participation in this conference, the Enterprise Europe Network offers their clients company visits in the Braga vicinity, meetings with specific clusters and B2B matchmaking.

At our networking event you will be given the opportunity to meet-up with relevant representatives from different companies, institutes and governmental bodies. In the preparation of this trip, we will make sure you will be connected to the right partners, based on your individual needs and preferences.
