Founded (year) 1999

3win® Maschinenbau GmbH develops and produces innovative offers in Aachen for the construction of special machines, especially for medium-sized companies in the high-tec sector. Since many years our customers appreciate the personal support from the first idea to the use of the machine. We install individual components, machinery and complete plants, also under clean room conditions.

By active cooperation with the RWTH Aachen University and the University of Applied Sciences Aachen 3win® gets innovative ideas, which are reflected by the creativity of its solutions. Our creative solutions make working with 3win® successful and productive.
