Founded (year) 1993

Medicor is registered with its high quality medical products and the according services on the German speaking market for more than 20 years. The managing directors are Winfried Backes, Heinz Gerhards and Guido Hillekes.

Started with the exclusive distribution of the CM-injector company Liebel-Flarsheim, the enterprises LORAD, HOLOGIC, R2 and SUROS joined later on with their main focus on diagnostic and therapeutic mamma diagnostic.

Medicor also continued the activities in the CT and MRI field with the Japanese injector manufacturer NEMOTO. In the market of interventional radiology and tumor ablation the Medicor portfolio contains microwave ablation (HS, Amica, Rome , Italy) as well as the chinese manufacturer HAIFU Chonqing in the field of noninvasive Hifu-treatment.

Market leadership in the field of women's healthcare and the German screening program is realized since more than 5 years.

Since 2010 Medicor GmbH is also established in Austria and Switzerland with headquarters in Cham and Vienna.
